

Safety Tips When Using A Glass Tea Kettle

Only use the base unit that comes with the kettle.

Never wash the exterior of the electric kettle with water. Only wipe clean it if needed.

Never use the appliance with the lid open to avoid scalding.

Never place an electric kettle near a hot stove or oven.

Don't use an electric kettle on a damp surface.

Close supervision is required if you use an electric kettle in the presence of children.

Always place the kettle on the base unit before connecting the plug to the power outlet.

Never use the kettle for purposes other than mentioned in the user's manual.
