

Ways To Ensure Your Child's Safety

When Using **TikTok**

Limit screen time using TikTok's screen time management feature.

Enable restricted mode to limit your child's access to mature content. Report any inappropriate content.

The 'Family Pairing' setting lets you link your child's account to your own account and helps you manage your child's privacy settings.

Encourage your child to maintain a private account to protect them from online predators.

Ensure your child does not share sensitive information in their profile or bio.

Encourage your child to use the video settings option to manage their viewers.

Report any untoward issue and ensure your child blocks the users whose content they do not want to see.
