

How To Tell If A Guy Is **CONFUSED** About His Feelings?

He switches from giving you all his attention to ignoring your calls and texts.

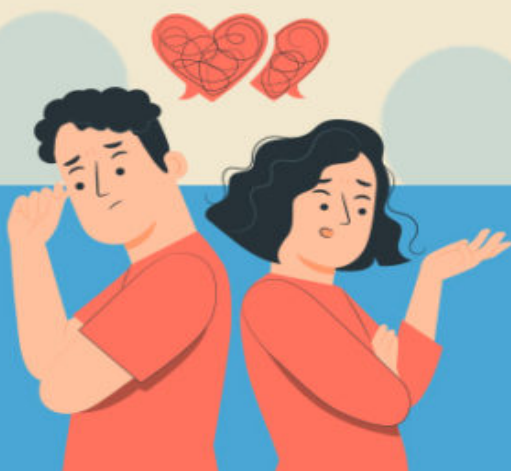

He says he likes you and treats you well but does not want to introduce you to his friends and family.

He becomes a stranger in public and avoids holding hands or being romantic in front of people.

He never says "I love you" even though you have said it to him and tries to make up for it through compliments.

He doesn't acknowledge your relationship and denies his feelings, although his actions speak differently.

He avoids talking about your future together or meeting your family but, at the same time, doesn't want to lose you.
