

# Never Run Out Of Things To Say To Your Girlfriend

You make me so happy just by being yourself.

I want to grow old with you.

Being with you just feels so right!

I love being in love with you.

You mean the world to me.

When I hold you in my arms, I feel so lucky.

I'm so glad you chose me.

Falling in love is great, but being in love with you is even better.
