

How To Apply Baby Shampoo For Dry Scalp

Use a soft brush to loosen the flakes and gently massage the scalp with oil.

Wet their hair with lukewarm water.

Squeeze a small amount of shampoo onto your palm and massage it into the scalp in a circular motion.

Towel dry the hair and scalp.

Apply a small amount of baby hair oil to your baby's scalp to moisturize and soothe the dryness.

Gently comb their hair to remove any tangles.

Try not to shampoo more than twice a week to prevent drying out the scalp.
