

Teaching Children

To Tie

Their Shoes

Sit and guide your child's fingers.

Hold a lace in each hand and crisscross them to form an X.

Insert one lace into the hole, and tighten both laces.

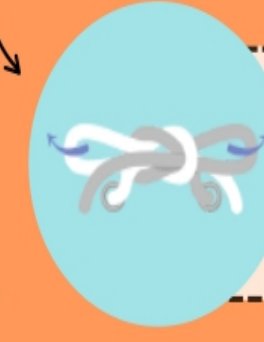

Make a loop using one of the two laces like a rabbit ear.

Wrap the second lace around the first lace's ear.

Maintain a good grip and push the other lace into the hole, making the second rabbit ear.

Tighten the ears by pulling them together.

Make sure the whiskers (lace ends) are as long as the ears.
