

How To Make A DIAPER CAKE?

Rolled Diaper Cake

Roll all the diapers and secure each with small rubber bands.

Place the folded diapers close and tie a ribbon around them to form the first layer.

Repeat the steps and stack multiple layers on top of each, with each layer smaller than the previous one.

Top the diaper cake with bibs, washed cloth, stuffed toys, and more colorful ribbons.

Folded Diaper Cake

Fold each diaper neatly, preferably with a single fold. Stick some hook-and-loop closures to keep the diaper folded.

Arrange the folded diapers in a circle and tie a ribbon around them to form the first layer.

Continue the steps to add more layers, with each layer smaller than the previous one.

Fold some washcloths in the shape of roses and stuff them between the layers. Top the cake with more washcloths, bibs, or toys.
