

# Interesting Activities

To Make The Summer Fun Time For

# Toddlers

## Window painting

Draw an easy large outline in the glass window and give your toddlers some crayons to fill the drawing with colors.

## Jello party

Help your toddler make some jello while following the instructions, and once done, have fun playing with it.

## Pudding painting

Give your toddlers puddings containing different food-grade colors, and watch as the toddlers paint and draw with them.

## Walking water

This science-based activity can amaze your little ones as they observe the water traveling from one colored bowl to another.

## Splatter painting

Help your toddler splatter different paint colors in the drawing sheet in any direction they want to make beautiful patterns.

## Color mixing with ice

Add water in different bowls and different food colors to each bowl. Pour the water into ice cube trays. Once frozen, give them to your toddler to play.
