

# Games That Help

## — Teach Time Management —

# To Children

### 01 Simple puzzle challenge

- Give your child a wooden or paper puzzle to solve for a set time.
- You may state that if they finish a certain number of puzzles within a fixed time, they will be rewarded.
- Give them clues to help them solve puzzles and finish in time.

### 02 How long is a minute

- Instruct your child to close their eyes.
- Ask them to open their eyes when they think it is one minute.
- This game will help them estimate and learn more about time.

### 03 Collecting blocks

- Gather colored blocks and place them on a table.
- Assign points (values such as 1 to green, 2 to blue, etc.,) to each color.
- Instruct the child to gather as many blocks as possible in a minute to score maximum points in the least amount of time.
