

# Buying Guide For

# Educational Toys

# For 8-Years-Olds

Consider the personal interests and hobbies of the child.

Choose toys that promote imaginative and creative play and skill development.

Avoid video games and electronic toys that don't encourage independent thinking.

Look for educational toys that include puzzles, mechanical models, and simple techniques and principles.

Look for toys that can allow your child to interact with other children.

Make sure the toys are safe, free of toxic materials, and have no sharp edges or points.
