

## Points To Consider When Getting A Bra For A Wedding Dress

Ensure you get the right size to prevent sagging and spillage.

Choose a strapless bra if your wedding dress is off-shoulder.

Get a stick-on bra if your dress has a low front or back.

Opt for a bra with lace detailing if your dress has a low neckline.

Select a seamless bra to keep the lines from showing through the dress.

Opt for a nude or neutral shade to keep the color from reflecting through the dress.

Get a stylish yet breathable bra to keep you well-ventilated throughout the event.

Look for a bra with an adjustable closure to ensure a snug yet appropriate fit.
