

Saying These Words To A

# LIBRA

May Not Be A Good Idea

**“Wait, I think you said something else yesterday.”**

Librans tend to be indecisive. So this will further confuse them and make it difficult to come to a conclusion.

**“Hey, do you have any new gossip?”**

Now that you know they are not very good secret keepers, don't be the one to fuel this behavior of theirs.

**“Is it really my fault?” or “Do you think I should do it?”**

It's better to assess the situation yourself rather than ask a Libra since they may manipulate you into thinking it's your fault for their benefit.

**“It's okay. Everything will be fine; just do what I say.”**

Don't take advantage of their inability to say no and make them do something they don't want to.

**“Oh, okay, if you say so! I trust you.”**

Since they tend to lie sometimes, it's better not to take their word for it without confirming with someone else too.
