

# BABY VACCINATION: Things To Consider

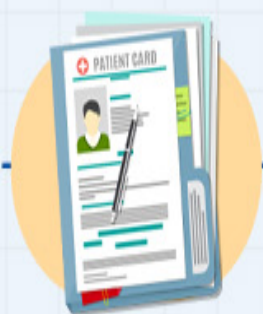

## Before Vaccination

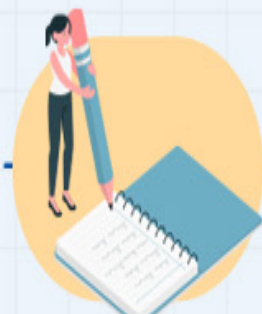

Monitor your baby's vaccination schedule

List the vaccines needed as per your baby's age

Carry your baby's vaccination records at the time of your appointment

List down your queries (if any) to ask your child's doctor

## After Vaccination

Dress your baby in easy-to-remove clothes

Carry baby's favorite toys to distract them

Do not get anxious or stressed when the baby is being vaccinated

Hold your baby gently, speak or sing to them to comfort them
