

How To Help Your 15-Month-Old Learn And Grow

1

Allocate some time to involve them in various activities.

2

Speak, listen, play, and interact with your baby every day.

3

Set a routine playtime and show interest in their activities.

4

Encourage your child to communicate and ask doubts.

5

Allow them to experiment with objects and environments safely.

6

Support your baby in solving obstacles to help them learn and grow.
