

How To Keep Mosquitoes Away From Your Toddler

Dress your toddler in long sleeves and pants, especially during peak mosquito hours.

Prefer light-colored, solid clothing to help prevent mosquito bites. Avoid clothing with flowery prints.

Keep windows and doors closed or use screens to prevent mosquitoes from entering the house.

Apply gentle mosquito repellents (containing eucalyptus oil or picaridin) onto your child's clothing.

Use mosquito netting over strollers and cribs, and invest in a portable mosquito net.

Eliminate standing water and empty garbage cans, and keep your toddler away from stagnant waters.
