

Types of Child-Proof Cabinet Locks

Magnetic locks

Operable by keys, challenging to unlock for the child.

Adhesive locks

Facilitate tool-free installation without damaging the furniture.

Pull-cord lock

Suitable for two-door cabinets with side-by-side knobs.

Spring-release locks

Suitable for pull-out drawers.

Slide locks

Suitable for when the lock needs to be fixed on the cabinet's door frame.

Internal locks

When you need invisible locks, hidden from the child.
