**Retractable gates** have a sleek design that seamlessly blends with the room's decor.

**Gates with locking bars** provide a complicated design for children to decipher.

**Mesh-style gates** have a soft surface, making it safer for children to play around.

**Gates with auto-shut** feature offer convenient and single-handed usage.

**Gates with double locks** at the top and the bottom provide additional security.

**Playpen-style** gates confine the child within the barricade, also serving as a play zone.
