

# Different Types Of *Blinds* For Bedrooms

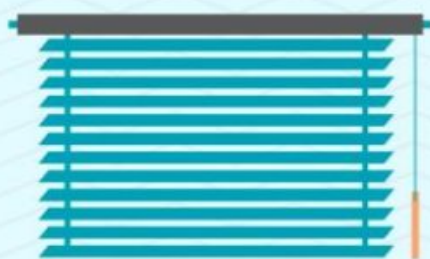

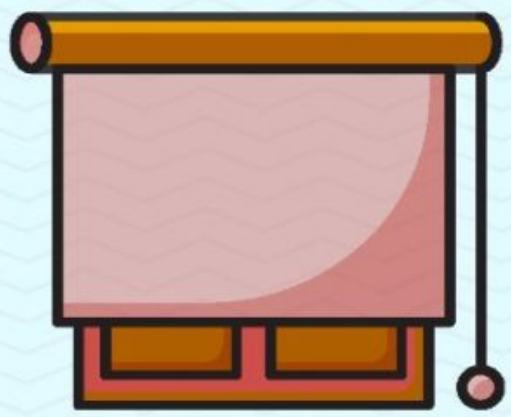

Venetian blinds feature slats that can be opened or shut to let in or block light.

Zebra blinds feature alternating blocks and openings to filter the light.

Roman blinds feature a slat-free design, imparting a soft and cozy look.

Blackout blinds feature a single unit of thick fabric, blocking out maximum light.

Roller blinds feature adjustable lengths to block the light as per your needs.

Cordless blinds feature a child- and pet-safe design, preventing strangulation.

Portable shades feature suction cups for instant installation and removal.
