

DIFFERENT TYPES OF Car Fans

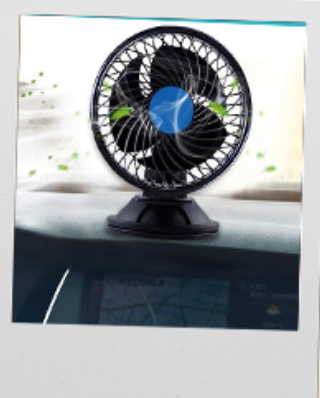

Clip-on air vent fans allow you to install or remove them as needed easily.

Dual fans feature two fans with independent rotation features, ensuring comfort.

Dashboard fans, fixed at the center of the dashboard, are ideal for front riders.

Headrest fans, installed on the rods of the headrest, are ideal for rear-seat riders.

Car fans with suction cups can be installed on windows for direct cooling.

Tripod fans double up as a desk fan and mobile phone stand, offering versatility.
