

# DIFFERENT TYPES *of* MAGNIFYING GLASSES

**Magnifiers with detachable lenses** provide versatility and customization.

**Rectangle-shaped magnifiers** offer a wider and larger magnifying range.

**Magnifiers with dual lenses** include a zoom lens, perfect for smaller fonts.

**Antique-style magnifiers** feature a golden rim and wooden handle.

**Magnifiers with built-in lights** enhance visibility in low-light conditions.

**Foldable magnifiers** feature a built-in cover, making them travel-friendly.

**Magnifiers with a rubber handle** provide a firm and non-slip grip.
