

Tips To Consider When Buying **Toy Cars** For **Your Child**

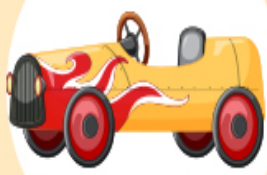

Select age-appropriate toy cars, as those designed for older children may be complicated.

If the toy car you pick works on battery, ensure the battery compartment is sealed safely.

Select robust and durable toy cars as they last longer and withstand rough use.

Look for visually appealing toys that grab your child's attention.

Cars with functional wheels can be maneuvered around smoothly.

Ensure the car toy you pick has no tiny parts that may cause choking.

Cars with burr-free edges and smooth finish are safe to play with.

Look for BPA-, phthalate-, and lead-free plastic toy cars.
