

ADORABLE WORDS

To Wish Your Buddy Their

75th Birthday

75 years of grandeur on this earth is truly an incredible achievement, dear friend. I wish you excellent health and joy on this Big Day!

Congratulations on your 75th today. I pray to the Lord to give you enough strength to blow out all the candles of your tiny cake.

Happy 75th birthday to a great friend whose presence makes the planet a more beautiful place. Thanks for the happiness you included in my life.

Another terrific milestone, my dear friend! May your celebration be filled with enormous love and peace. Happy 75th birthday!

Good friends remember your age rather than your birthday. Being a true friend of yours, I remember only your birthday. Have a 75th birthday bash.

Congrats, buddy, for completing seven and a half decades on this planet! I wish you to celebrate this remarkable day with great radiance.
